

John Berry
Senior Supply Chain Manager
Supply Chain Development Team

What does a good supplier look like?

Our purpose is to clean up Sellafield site.

Our Mission:

To be a world leader in solving complex nuclear challenges.

Our Vision:

To safely and securely remediate the Sellafield site to benefit the industry, nation and region.

We focus on:

Safe, secure site stewardship:

Includes everything from the safety of our employees and care for the environment through to the secure management of nuclear materials. It underpins every decision we make.

Return on investment:

We will continue to demonstrate value for money through the delivery of our mission, positioning the site and its people for the future.

Demonstrable progress:

Focussing on accelerating the clean-up of our legacy facilities and also completing our reprocessing programmes.

The logo for 'Si Social impact multiplied' is located in the top right corner. It features a large, bold, white 'Si' on a red circular background. Below the 'Si', the words 'Social impact' are written in white, and 'multiplied' is written in a smaller, dark blue font. A white curved line separates the logo from the rest of the slide.

Sustainability

Definition

“a process whereby organisations meet their needs for goods, services, works and utilities in a way that achieves value for money on a whole life basis in terms of generating benefits not only to the organisation, but also to society and the economy, whilst minimising damage to the environment”

Sustainable Procurement Task Force

“.....sustainable procurement should consider the environmental, social and economic consequences of design; non-renewable material use; manufacture and production methods; logistics; service delivery; use; operation; maintenance; reuse; recycling options; disposal; and suppliers' capabilities to address these consequences throughout the supply chain”
