

Course aim

This programme is designed to provide plant training for the construction industry. This nine-day training programme will give you a set of certificated skills which are desired by the construction industry.

The programme will boost your confidence and motivation in a supportive environment. Work focused with advice and information on CV and interview skills, transferable skills, job applications and action planning – we will support you to gain employment, an apprenticeship or, if employed, upskilling in your current role.

Schedule

The Skills Bootcamp commences on Monday, January 23rd.
