

## UK Hydrogen Trade Mission to India

Varanasi – New Delhi – Mumbai

04-08 December, 2023

*UK Hydrogen companies are invited to join a trade mission to India to meet key stakeholders and participate in the annual Hydrogen Association of India (HAI) conference. The mission is being organised by the UK's Department for Business and Trade (DBT) in partnership with Midlands Region.*

India's National Green Hydrogen Mission (NGHM) is aiming to have 5 MMTPA Green Hydrogen production capacity by 2030. NGHM is aimed at developing India's hydrogen ecosystem, by facilitating demand creation (from hard to abate industries like refineries, cement, steel, fertilizer), production and utilisation.

The UK will be joining Hydrogen Association of India's (HAI) Conference, one of the leading anchor events on Hydrogen ecosystem in India, as a Partner Country. The trade mission will be an opportunity for you to join the conference in Varanasi (Uttar Pradesh), as well as meet key stakeholders in New Delhi and Mumbai.

Draft programme:

- Day 0: 3rd Dec 2023 (Sunday)  
Arrive in Varanasi, Uttar Pradesh, Attend Networking Reception
- Day 1: 4th Dec 2023 (Monday)
