About Us

We're excited to have a new office at The Heath Business Park and wanted to take a moment to say hello.

IKM has 25 years of engineering experience within high hazard and regulated industries. Our commitment to delivering safe design solutions for high-risk projects and industries has allowed us to sustainably grow our teams.

With an integrated team of Civil & Structural Engineers and Environmental Consultants, IKM has built a portfolio in Chemicals, Petrochemicals, Oil & Gas and Onshore Energy Transmission.

We're incredibly excited for this next phase of our business journey and look forward to engaging you and the local community.
