

# Retrofitting housing and reducing carbon in Cumbria

This event provides an opportunity for those with a cross-section of interests in retrofitting the domestic housing stock of Cumbria to engage in discussion and share perspectives.

We will hear from a variety of stakeholders, including:

- The context of reducing carbon emissions in Cumbria
- The retrofit challenge from Local Authority and Housing Associations perspectives
  - Current training and accredited qualifications for retrofitting
    - Potential for a Retrofit Hub in Cumbria
  - Potential for collaboration and mutual economic benefit

The event will provide an overview of retrofit developments in Cumbria and an opportunity to contribute to next steps in a collaborative framework.

Taking place at Lakes College  
Friday 9th June, 08:45am-12:00pm
