

# NUCLEAR SUPPLY CHAIN SUMMIT 2026

## ...getting ready to deliver

**Sponsorship &  
Exhibition opportunities**

# Following on from the success of the 2025 event, NucCol will host the 2026 Nuclear Supply Chain Summit on Wednesday 7th October in Derby.

---

Bringing together organisations from across the nuclear supply chain, the event will provide valuable insights into the opportunities emerging from the UK's expanding nuclear sector. Delegates will hear the latest updates on new nuclear power projects, decommissioning programmes, defence initiatives, fusion energy developments, and space-related activities.

As investment continues to grow across large-scale nuclear builds, small modular reactors, defence programmes, AUKUS, fusion, and space technologies, the summit will help businesses understand where future opportunities lie and how to position themselves to secure work within these major programmes.

Attendees will benefit from expert market intelligence, industry-led presentations, and networking opportunities with key stakeholders from across the sector. The event will provide practical guidance on engaging with upcoming projects and strengthening supply chain capability in a rapidly evolving market. The Nuclear Supply Chain Summit offers a unique opportunity to build connections, gain strategic insight, and explore the projects that will shape the future of the UK's nuclear industry.
